Introduction

We are pleased to present the fourth issue of the Management Sciences quarterly in 2019.

According to the concept of the functioning of our magazine, the presented articles deal with both the theoretical aspects and model considerations based on literature studies, and the results of empirical research.

The subject matter of the presented issue includes:

- security management in the organization
- digital transformation and its models
- problem of corporate governance in housing cooperatives
- problems of the choice of private label brands by customers
- the stages of development of management styles.

We hope that the presented articles will be an inspiration for your own research or will help to improve management processes in practice. At the same time, on behalf of the editorial committee, I would like to encourage our valued readers to publish their own research work in our journal.

Witold Szumowski
